About Me

An organized and hard-working employee looking to join the company as a developer. Recently, I have updated myself with Spring 5 and Spring Boot 2 along with Thymeleaf for UI enhancement. Looking to take advantage of my skills in code development, and the brief knowledge I have acquired of Information Security to provide the best to the company.

I have worked as Information Security Engineer in Infosys where I have conducted various security awareness sessions with more than 100 people as well as other Business Security related work. During the training in Infosys, I was among the top performer of the batch.

Experience

Information Security Engineer

01/2019 – 06/2020

Infosys Ltd.

Bengaluru

- Conducted more than 10 security awareness sessions for the accounts, post a security incident with an average attendance of 100 people
